### WORK EXPERIENCE

---

**PETRONAS Digital Sdn. Bhd., Kuala Lumpur** (Jun 2023 – Present)  
**Software Engineer – Front End Developer**

- Developed and maintained web applications to support PETRONAS's business operations, ensuring high performance and user satisfaction.
- Collaborated as a team player, organizing annual events for feedback and requirement gathering, fostering effective communication and enhancing internal cohesion.
- Enhanced system performance through agile coding practices, addressing evolving business needs and delivering timely software solutions for heightened user satisfaction.

**PETRONAS Dagangan Berhad, Kuala Lumpur** (Sept 2022 – Feb 2023)  
**Software Engineer (Internship)**

- Collaborated with the Project Manager and development team to design and implement web-based bidding application on supporting PETRONAS's business operations.
- Documented and conducted User Acceptance Testing (UAT) sessions with stakeholders and business owners, providing them with a reference script and ensuring the system functions as intended, is user-friendly, and meets user requirements.

**MC PRINT, Kelantan** (March – Sept 2020)  
**Sales Graphic Designer**

- Designed numerous sales product (logos, brochures, newsletters, infographics, presentations) and guaranteed that exceeded the expectations of clients.
- Produced both eCommerce and non-eCommerce creative website layouts and content for the use of clients.
- Utilized Adobe Photoshop and Adobe Illustrator to create high-quality graphics for various projects.

## PROJECT INVOLVEMENT

---

### GO Dashboard

#### PETRONAS Digital Sdn. Bhd.

- Maintained a critical platform for internal PETRONAS executives, facilitating the monitoring of oil and gas emissions and production across PETRONAS-owned oil rigs.
- Responsibilities included bug fixing and implementing new stakeholder requirements.
- Played a vital role in providing real-time data and insights for upper-level leadership decision-making.
- Utilized a tech stack comprising HTML, CSS, Typescript, React, Redux, and Axios.

### ARENA

#### PETRONAS Dagangan Berhad

- Developed a comprehensive bidding platform for PETRONAS oil and gas vendors.
- Enabled business owners to create a listing for registered vendors to bid on oil and gas products offered by PETRONAS.
- Significantly streamlined the bidding process, fostering greater competition and transparency, and enhancing procurement efficiency for PETRONAS.
- Utilized a tech stack comprising HTML, CSS Tailwind, Typescript, React, and jQuery.

### ASMARALOKA: Property Marketplace by Implementing Web Scraping

#### Final Year Project

- Developed a centralized property marketplace functioning as a metasearch engine.
- Collected and compared real estate information from multiple leading property marketplaces using web scraping techniques.
- Won the Best Innovation Award in the Real Estate Industry category at the Convention of System Development Project: Final Year Project organized by Faculty of Computer and Mathematical Sciences.
- Utilized a tech stack comprising Python, HTML, CSS, JavaScript, Flask, and Bootstrap.
